

Save Moscow's Therapy Pool

I am adding my name, below, in support of keeping the Gritman-Martin Wellness Center and Nirk Therapy Pool open to serve the immediate and ongoing need of clients, and to allow time for formulating short and long term plans for maintenance and repairs. Closure of the Nirk Therapy Pool and Spa, even temporarily, will negatively impact hundreds of residents. The population using this facility tends to be older, and is often fragile. They cannot afford to lose access to this important community resource, even temporarily.
